

The Wild Felid Research and Management Association

The Wild Felid Research and Management Association (WFA) is a professional association open to researchers, wildlife managers, educators and others dedicated to the conservation of all wild felid species, with an emphasis on those species in the Western Hemisphere. The WFA acts in an advisory capacity to facilitate wild felid conservation, management, research, and public education, and functions among various governments, agencies, councils, universities and organizations responsible or interested in wild felids and their habitats.

In This Issue

COVER STORY

- 1 Wild felids and biodiversity conservation

COUNCIL NEWS

- 3 From the President
5 Regional reports: Paraguay
6-7 WFA Council Election
8 In memoriam
9 Announcing the Wild Felid Legacy Scholarship
10 Synopsis of the Human Dimensions of Wildlife and Fisheries Conference
11 Synopsis of felid talks at The Wildlife Society 2008 Conference
25-26 WFA member application and survey
27 Future Events
28 Getting involved with the WFA

MANAGEMENT NEWS

- 12 Puma recovery in Ontario, Canada
12 Availability of the 3rd revision of the Florida Panther Recovery Plan
12 Cougar management changes in New Mexico
13 Mountain lion research in Montana

NOTES FROM THE FIELD

- 14 New records of the Andean cat (*Leopardus jacobita*) in Neuquén Province, Patagonia, Argentina
15 The Cuatro Gatos Project: Wildlife research and conservation in northwestern Mexico and implications of the border fence
16 Belizean jaguar and puma research
17 A synergistic, interdisciplinary approach to jaguar conservation and management in Belize
18 Arizona jaguar still roams north of the U.S./Mexico border fence
19 Coexistence Project: Understanding and improving people's perceptions of jaguars In Brazil
20 Public opinion research informs cougar education in Washington State

TOOLS OF THE TRADE

- 21 Molecular Scatology: Optimizing noninvasive genetic monitoring of jaguars (*Panthera onca*) and other elusive feline species in the tropics

RESEARCH HIGHLIGHTS

- 22-23 Research abstracts
24 Recent Publications

The Wild Felid Monitor is the biannual newsletter of the Wild Felid Research and Management Association

Managing Editor: Chris Papouchis

PO Box 3335, Montrose CO 81402 USA E-mail: wildfelidmonitor@gmail.com; Websites: www.wildfelid.org & www.wildfelid.com

Editorial Policy

The Wild Felid Monitor encourages submission of articles, information and letters on ecology, research, management and conservation of wild felid species, and particularly of those species native to the Western Hemisphere.

Preferred length of submissions is about 750 words. Submissions of photos, drawings and charts are encouraged.

Electronic submissions to wildfelidmonitor@gmail.com are preferred; otherwise mail to the address above.

The WFA reserves the right to accept, reject and edit submissions.

Deadline for the Summer 2009 issue is April 1, 2008
